  - Roger Eakins, President of Missouri Simmental Assoc.

**Announcements:**

A supplement sheet will be available sale day with updated information, catalog corrections, or any additional information. This information and any information relayed over the auction block during the sale will take precedence over printed material for the sale. Anyone attending the sale does so at their own risk. DP Sales Management, sale hosts, and/or consignors will not be held responsible for any personal injury incurred at the event. DP Sales Management is only an agent for the seller and has no responsibilities other than those conducting the sale.

**Sale Registration and Payment:**

All buyer numbers will only be issued with a valid ID and payment is due day of sale. DP Sales Management, LLC would appreciate timely settlement of receivables within 15 days of date of sale. Cattle will not be transferred until paid in full.

**Terms & Conditions:**

All cattle sell under the terms and conditions of the American Simmental Association. Cattle become the responsibility of the buyer upon purchase. Terms of sale are cash or check, payable during or immediately after the sale and before cattle will be released. Payments are to be made within 15 days of the sale. Failure to make settlement in a timely manner will result in prosecution. Cattle will not be transferred until paid in full.

**Note:**

The EPDs reported in this catalog are the Fall 2017 numbers, as reported by the American Simmental Association.
Welcome...

One of the things that makes me excited as the fall sale season starts is knowing that soon everyone will be heading to Louisburg, Kansas. I hope that you and your family will choose to be with us this year at the 15th annual Head of the Class sale. DP Sales Management along with Steve and Margaret Sanders invite you to be with us on September 23rd.

This year at the Head of the Class you will have a special opportunity to select from several from top cow families from a great group of dedicated breeders. You can choose that special donor, a bred, a ET heifer along side its recipient dam and even IVF heifer embryos or your next show heifer. As you will notice thru the catalog Bill Fulton, Bramlet Simmentals and Andrew Speas are strong in numbers and quality. Wesner Livestock and Glacier Cattle Co have some outstanding pairs and breeds that will impress anyone. Sanders Ranch is a cooperator herd for Hudson Pines and we want to acknowledge and offer a huge “Thank You” for their support of the Simmental breed and the AJSA program. A special thanks to Ryan and all the HPF crew. The same rules applies as in the previous sales, sell your best and the Sanders crew will roll out the hospitality. At the 2017 sale you will find many unique packages of genetics that many will find appealing and beneficial for any program. No matter what you are looking for or what your budget might be, I know you will find something in Louisburg you can’t wait to load on your trailer.

All the participants in the Head of the Class offer their gracious hospitality during the sale, and naturally stand behind their product. Steve and his crew make the Head of the Class a true five star event for everyone in attendance. It is a honor to call Sanders Ranch and the Head of the Class home for the weekend of September 23rd.

Study your catalog and call for additional details on your favorites. If you can not be with us on sale day, please utilize DV Auctions or any member of the sale staff listed in the catalog. Everyone involved in the Head of the Class sale is willing to assist you in any way they can, so please do not hesitate to ask Darrin, Bill, John, Barry, Bo, Andrew or Ryan any questions. We look forward to seeing you on September 23rd for the 15th annual Head of the Class. Contact Drew, Holli or myself we be glad to assist with any of your needs at the Head of the Class. Remember to mark your calendar for the 2017 event and even each year the fourth Saturday in September! If have not been to Head of the Class make this the year to see you in Louisburg on September 23rd 2017.

I would also like to thank the following people for making this sale possible:

My family, Connie, Grady and Bristol
Steve Sanders Family
Greg and Barb Toller
Matt Russell and Scot Lanham
DP Sales Management

On behalf of myself, Steve Sanders and the entire Sanders Ranch family, I would like to invite you to the 15th annual Head of the Class production sale. The fourth Saturday in September for the last 15 years, all eyes in the Simmental Seedstock industry have shined on the Sanders Ranch sale facility. There is no doubt that what has made this sale so successful over the years is the industry leading genetics that have walked thru this sale ring, but more importantly it is the partners that put this sale together that make it a “must attend” sale! The integrity of the Head of the Class group is second to none and I challenge you to find a group of breeders in one sale that have done more and for the Simmental industry than this group.

As always we encourage you to bring the entire family. We take pride in putting together a fun filled sale weekend so that a good time will be had by everyone in attendance. The cattle will be on display Friday afternoon, and followed by a great meal, fine music and of course the bounce houses for the kids. We look forward to seeing you in Louisburg on September 23rd 2017.

Doug Parke
Powerhouse Female best describes this donor cow in the making. The cap hasn’t even been cracked on this young female. I know we sound like a broken record talking about what A325’s dam S054 has done for us but it’s hard not to. She puts daughters in our hands like this one, year after year. This female is worth the drive to Louisburg this fall. At the recent Summer Stakes Elite Sale two pregnancies sold to Michah Cook and Hilltop Simmentals respectively. A325 has been worked IVF once offering 54 oocytes and producing 17 high quality embryos. To top it off she will have a coupon at side for your appraisal when you arrive. Females like her don’t come around often so jump on while you still can.

- **Bred AI** to STCC Womack 4042, ASA#2886419 on 12/2/16
A typical S054 descendant that is full of power but yet has the balance and structural correctness to make great ones down the road. You will not find a better-footed structurally sound female on the sale day. E703 may not be that super fancy type but I can promise you one thing, she will take you places others can't.

We know that the “KenCo Glamorous 430 W” donor needs no introduction, but if we may, a quick recap. A 1/2 interest sold in last year’s sale for $10,000, a $12,500. Son is working in the Belsham herd in Canada, a $29,000. Sold in a past Head of the Class Sale, embryos have sold very well by various sires. The two breeds in last year’s sale have moved into donor programs. “BF My Fair Lady” falls not far from the tree. She is elegant, attractive, in all ways functional, in a word Glamorous. She is offered to you bred to “SC Pay In Cash” the homo black, homo polled full brother to “Pays to Believe” that we purchased from Shoal Creek in their 2016 Sale. We are excited about the impact this bull will have in our program and that this female will have in yours.

- Selling three embryos guarantee one pregnancy if work is performed by a certified embryologist.

- What ever we work and mate 430W to it always is a hit. If you have followed this cow family over the years you can understand the predictability and consistency. Ask breeders that have been around for several years or call Randy Favorite at KenCo. All the bulls will work and produce offspring for that fit in different parts of the Simmental sector. What a line of genetics. Take three, six or nine.

- Of all the prolific and profitable daughters of the great Cottontail we have had the opportunity to raise this is the one we chose to keep to replace her mother and when you see her in person you will see why! Homo Black and Homo Polled this powerhouse raised by far the biggest stoutest bull this summer. We are just now starting to see her potential and would love to share in this young prosperous Donor Cow!

- WE ARE SELLING 1 IVF CYCLE TO THE BULL OF YOUR CHOICE, GUARANTEEING 6 TRANSFERABLE EGGS WITH AN OPEN TOP! Cottontail 086Z has averaged 42 oocytes per aspiration with 14 transferable eggs per IVF cycle. She is currently bred and will calve in December, the work will be done at Trans Ova Genetics in Chillicothe, MO with buyer paying the aspiration expense and providing semen on the bull of your choice. We invite you to Louisburg in late September to see for yourself just how awesome this beast of a cow is!!

Head of the Class 2017

SS/HPF Cottontail 279D

- This heifer has been catching people's eyes since she was born for many obvious reasons. Her extra body and extra chrome will draw your eye and her legendary pedigree will grab your heart! We don't have much BC Lookout semen left but we knew it was a perfect match for 279D. Vet called her safe to the AI date, and said she would calve on a Wednesday, give or take 3 days!
- Bred AI to BC Lookout, ASA#2431243 on 4/27/17
- Pasture Exposed to HPF Believe It 331C, ASA#2969093 from 5/1/17 to 7/4/17

BF Miss Lookout Cowboy

- This is surely one of the top donor prospect females in the sale. Take a look at her big bold stout body and then at her strong numbers on the paper side and see what you think. Cowboy Cut worked well on Speas Dandy Kane donor. This ET female will be 2 yrs. plus when she calves to the up and coming BF Billy Joel bull in January.
- Bred AI to BF Billy Joel, ASA#2988789 on 4/12/17

SFIS Elizabeth

- Cow, Cowey, Maternal have all been words others have used to describe this female. Huge middle and very sound with no real holes with her or her pedigree. SFIS Elizabeth is one of those kinds of females that are built for longevity and to bring in a top calf year after year. Take this one home, breed her, and let her make you money.
**SFIS Emma**

**Speas Farms, LLC**

3/4 Blood :: 2/12/17 :: 3274247 :: E14 :: 79

- Emma is a Feb heifer with lots of style, extreme balance, and a color pattern that is unique and will stand out wherever she goes. Check out the lightning bolt on her top line! She will make a great cow in any breeding scenario and make her new owner money for years to come. Backed by a strong cow family, not to mention being sired by the great sire WLE Big Deal.

**Choice of Heifers**

10

**BF Miss Pure Donna E425**

3/4 Blood :: Pending :: E425

- Choice of heifers
- Sandeen Donna 4232 kicked off her production career in last year’s Head of the Class Sale with embryos bringing $2,500. This year we bring you these two gorgeous February Innocent Man daughters for your critique. Put your best eye on these elegant ladies, because we are only selling one. They are images of their dam right down to the powder on the nose. Selling Choice.

10

**BF Miss Pure Donna E427**

3/4 Blood :: Pending :: EA77

- Choice of heifers
- BF will retain the other. Reserving the right to one flush of 6 minimum (sellers expense, buyers convenience).
• Sometimes wishes do come true! After our selection of Sandeen Donna 4325, from the 2015 Sandeen Building A Brand sale, we knew had the red gene. After seeing her first natural calf she went straight to the donor pen. This March Red beauty SFIS Rosie Red is a result of that mating back to WS Profit. (Semen is not on the open market). Rosie has the pedigree, structure & killer look to make an excellent breeding piece /show heifer for any program. Rosie will be shown at the Iowa State Fair and is Kid Broke.

- Patient SFIS Eleanor is a little greener here at picture time. Her recipient mother was a real bust. I look forward to seeing what the future potential of this true breeding piece can be, now that she is on feed! This is a Profit back to a Sandeen Donna by Remington Lock & Load. I predict if she keeps changing as much as she has changed since picture time, when you see her in Kansas you won’t believe your eyes.
Here are two big stout quality females out of our “Grandview CMR 5289 Lady 8515” donor. She is the biggest bodied, biggest footed Angus we have ever had on the place. Cowboy Lady is a January, Lady Pays is a February, their very similar. We will let you pick (selling both). Note the performance data on these half bloods.
Head of the Class 2017

SFIS Carrie Underwood
Speas Farms, LLC

Purebred :: 4/22/17 :: 3268333 :: E9 :: 70

LLSF Uprising Z925
WS Revival
SS Noreen
SS Revival S701
Long’s Foxy Lady
Longs Miss Sweets

• Not much is yet known about the WS Revival females, but if this April baldy heifer is any indication of their look, soundness, hair and overall completeness then I’m all in. Carrie Underwood had a great disposition, making her a wonderful choice for a young show person.

SFIS Patsy Cline
Speas Farms, LLC

Purebred :: 3/17/17 :: 3268334 :: E10 :: 75

STF Royal Affair Z44M
JF Back In Black 406B
Zeis PCGF Perfection
Mr NLC Upgrade U8676
HPF Sheza Star X331

• Her name is Patsy Cline, her donor dam is Hudson Pine/Janssen Farms, HPF Sheza Star, that is quite a bit to live up to. This sleek fronted ultra-feminine March PB heifer might be a little greener now, but if you study her and can imagine just a little down the road, she just might be the one to hitch your wagon to. She will be shown at the Iowa State fair and will be ready to carry on that winning tradition for her new owner.

SFIS Erin
Speas Farms, LLC

Purebred :: 3/15/17 :: 3274250 :: E17 :: 69

W/C No Remorse 763Y
W/C BF Innocent Man
Miss Werning 174Y
Long’s Foxy Lady
SVF Steel Force S701
Longs Miss Sweets

• This March PB by Innocent Man daughter is a dead ringer of her mother, Long’s Foxy Lady, who was, by the way, the high selling donor cow from the 2015 Head of The Class Sale At $14,500. SFIC Erin is also a full sister to the 2017 high selling PB bull at the Iowa Beef Expo. You take a heifer like this that is bred to be calving ease, that you can see she has the power, muscle bone & hip to raise herd bull after herd bull!
**SFIS Eva**

**Speas Farms, LLC**

**Purebred**: 3/25/17 :: -3274251 :: E18 :: 74

- **Remington Lock N Load 54U**
- **W/C Loaded Up 1119Y**
- **Aubreys Black Blaze III**
- **Mr NLC Upgrade U8676**
- **HPF Sheza Star X331**
- **SVF Sheza Star S803**

• SFIS Eva is big boned with a big foot to match, great structure and power. This March Loaded Up daughter has a bright future no matter how you choose to use her. This heifer is a result of a package of embryos purchased from Hudson Pines embryo auction, if I had known then what I know now about this mating I would have tried to buy more. Gentile disposition and show ready with a long line of proven genetics backing her.

**SFIS Loretta Lynn**

**Speas Farms, LLC**

**Purebred**: 4/5/17 :: 3268335 :: E11 :: 77

- **Remington Lock N Load 54U**
- **W/C Loaded up 1119Y**
- **Aubreys Black Blaze III**
- **Mr NLC Upgrade U8676**
- **HPF Sheza Star X331**
- **SVF Sheza Star S803**

• This baldy PB April heifer, Loretta Lynn should have lots of friends come sale day. Her Power packed pedigree W/C Loaded up top side, HPF Sheza Star - bottom side, lines this heifer up to be productive for many years to come. This long fronted, huge middle, very sound to the ground heifer has a great disposition and is kid broke ready to show. The grand dam Sheza Star S803 is one the best ever bred by Sunset View and did great things for Hudson Pines and then was one the high selling ever females for Hudson Pines going to Moore Land and Cattle.
• The Crocus cow family needs little introduction for many and this S105 decedent doesn’t disappoint. There’s always a female in every pen that does nothing but get better every day and this female has been that amongst her contemporaries. Put a rope on her, throw her in the replacement pen and breed her for a fall or forget about her and breed her for a January calf if you spring calve there’s no wrong answer with this one. Study your lesson, a maternal sib at Mid Continent and Oak Ridge just sold for $33,000 last year. These are later maturing, money making cattle.

• Offering 3 Direct Transfer embryo’s guaranteeing one pregnancy.

• This cow family needs no introduction on consistent quality and return on investment. This is a solid investment in a solid cow family.

• Probably the most talked about female in our string at the Simmental Breeders Sweepstakes. It’s hard not to get excited about a female like D638 with her overall power and cow look but yet being so smooth in her overall make up. Here’s one that can wear a halter or go straight to a donor pen without a doubt. Backed by the Crocus cow family.
• 015U without a doubt is the hottest producing Simmental donor in the breed! Her calves excel in the show ring, sale ring and the pasture. There are to many show winners and sale toppers to mention but the numbers are staggering! This mating to the baldy powerhouse “Classified” should be a match made in heaven, his power and faultless structure combined with her elegance and predictability! Calves should be on the ground by sale time! It doesn’t get much better than this!
HILB Ruby Butterfly B555 - reference dam

RGRS SRG Two Step 20Z ET - reference sire

HTP/SVF Duracell T52 - reference sire

• B555 is a young donor that is filling big shoes at Hudson Pines Farm and Pine Creek. She has proven herself to be one of the elite donors in our program because of the overwhelming acceptance of her daughters the last couple years. The mating to both Two Step and Duracell should both result in some of the finest SimGenetics you will be able to acquire this fall. Due to the untimely passing of B555 the genetics out of this breed leader will be very limited. It wasn’t our plan to sell these as pregnancies, these are the matings we calve out and become sale toppers in the fall. Take advantage of this historic opportunity! Should calve by sale day!
WSCC Miss Trinity 5C

- Miss Trinity 5C is a three quarter, coming three year old female, that has longevity written all over her. Not only is she built right in her skeleton, but her numbers tell you that she should be a female that stays in the herd for the long haul, but here as female that could produce the next calving ease sire for the breed. This being the first time to offer cattle in the Head of the Class Sale for Glacier Cattle Company, we wanted to bring genetics that can serve as a foundation for any herd. To help prove her potential, look at the CCR Frontier bull calf at her side. He very well could be the next herdsire for use on the replacement heifers to enter your herd. He is a square built and has a great deal of shape for a potential calving ease sire.

- WSCC Blackbird 44C is a three quarter daughter of MR NLC Upgrade U8676 out of the Crocus cow family. This coming three year old is a perfect match of power with maternal traits. Here is a cow that is in the top 35 and 25 percent for both API and TI, respectively. Visually, she is front pasture caliber, stout made, big-footed female that is built to last the test of time. To assemble that neat front end with the stout pin and rear leg that she has is challenging to make. Young cow here with a ton of future.

GCCO Front Force 5E - Lot 26A

GCCO Black Crocus 44E - Lot 27A

WSCC Miss Trinity 5C

WSCC Blackbird 44C
Another good young cow that is good built, half-blood with a balanced set of numbers that are on the right side of breed average for API and TI. The maternal side of this female goes back to the Leachman Right Time Angus bull that has a proven record of cattle that keep you in the business. This is a coming three-year old cow that truly covers the basics.

- Bred AI to WLE Uno Mas, ASA#2532016 due 2/4/18
- Pasture Exposed to WLE GCCO Deal Me In, ASA#3088897 due 2/4/18

If you’re looking for a young cow to work with – Check out this pair! Look out x Ebony’s Mavis needs no introduction to Simmental circles for portraying quality and value. Her stunning looks, phenotypic excellence, and solid numerical values will carry her far into the future and make her a wise investment for anyone. Make sure you check out her excellent Revolution heifer that is very suitable to wear a halter and write her own production story.

- Bred AI to CMFM Caught Lookin D929, ASA#3235224 on 6/7/17 Safe in calf.

A SDS Graduate 006X heifer calf with a great genetic profile that is above breed average in nearly every column. This heifer calf in basic in her build and genetically a power house.
Here is a pair of cattle that deserve the most discriminating appraisal. Queen was the Grand Champion female over all breeds at the Hoosier Beef Congress sale show as a heifer calf and has held up her end with her production. Every year her calves have been highly marketable regardless of their gender. The picture tells the story of her phenotypic quality and the young stud at her side is just another example of her production capabilities. I would recommend this cow to anybody in any production scenario and truly believe she is a good candidate for embryo transplant. We know that there are many good cows selling this fall so we decided to offer one that is extra special for your consideration.

- Selling 3 embryos guaranteeing 1 pregnancy if work is performed by a certified embryologist.

- Bill Fulton and Bill Sloup are very excited about their partnership on this female. The one the Wernings referred to as the jaw-dropping full sister to “WC BF Innocent Man”, and one of the most intriguing structural gems we have ever produced! With a stout attractive Executive Order bull calf at side, pregnancies for 2018, and embryos in the tank. The partnership has decided to offer a tremendous opportunity in the Head of the Class sale. Do your homework on these two new sires. Fully Loaded is the Husker group red full brother to the $205,000 1/2 interest Werning “Bank Roll” bull. “T.L. Ledger” is the Profit son out of the dam of Bottomline, being promoted by the Hartman Group. Make your Choice! Be on the front end of this promising venture in new genetics.

Head of the Class 2017

• Another tremendous daughter of the 457W cow that we purchased a flush on a few years ago. This is a last embryo we had out of this highly profitable mating by the Griswold herdsire, Combustible. These siblings have simply a flawless phenotype every time. D654’s full sister that sold in this very ring and selected by the Gilbert family was just named Champion Cow/Calf pair at the Illinois State Fair. A full brother was Champion bull the KY Beef expo and went to Edwards and Viner. That bull was just slapped Reserve Champion Bull at the Illinois State Fair. And yet another full brother was high selling bull at last year’s Head of the Class Sale. This mating has been a no miss. As we’ve watched these siblings mature they only get more impressive each day of their lives. We don’t know what the future holds for this lady but I’m sure it’s going to be awfully bright.

• Offering 3 conventional embryos guaranteeing 1 pregnancy if work if performed by a certified embryologist.

A couple years ago we were in search of a powerful SimAngus female to lead our show string. We fell in love with this stunning Combustible female right here at the Head of the Class Sale. Little did we know how successful C504 show career was going to be. Right out of the gate C504 started collecting banners at shows like Dixie National, ISU Hoof n Horn and the Ozark Empire Roundup to name a few. Last fall C504 claimed Reserve Supreme Champion honors at the DuQuoin State Fair and just a few weeks ago she and her calf were named Champion Cow Calf Pair at the Illinois State Fair. We are just getting started on this great young donor and have flushed her once very successfully. C504’s phenotype and pedigree speaks for itself and we can’t wait to see what the future holds for this outstanding female.
Study a halfblood female here that brings a whole lot of extras to the table. Extra muscle, extra bone, extra look and extra digits on paper just to name a few. Superior phenotype was the priority when I mated this female’s dam and it doesn’t always happen that a pure phenotypic mating decision has what it takes on paper – this time I got both. This heifer is way off center in her build, in all the right ways to make someone look very smart. D18 fits and works, no matter the goal. Halter-broke with reason.

You could mistake “Innocent Joy” for one of our young cows out in the pasture. Full bodied is an understatement. Still moderate and attractive profiled, she is truly unique. One of two daughters out of our “Mr. Innocent Dreamer” sire, our alternate pen bull in the 2016 Denver show.
We think this is the first heifer calf to sell out of "The Judge" our lead pen bull in the 2016 Denver show, owned with Sloup, Hilltop, Ruth and Longs Simmentals. Her dam, the Collins Meyer 7167 donor, produced a high selling open and bred in past Head of the Class sales. A very good black blaze ET female.

The dam of this heifer is a commercial female (non-registered) Brilliance x PB Simmental that was the high selling bred heifer on Tim Burke’s Reduction Sale 2014. We bred her to our “BF Mr. Innocent Dreamer” to get this outstanding show heifer prospect. She really is one of my favorites. No doubt she is moderate in her frame, but has a lot of good in her. Take a chance on this one.

We think this is the first heifer calf to sell out of “The Judge” our lead pen bull in the 2016 Denver show, owned with Sloup, Hilltop, Ruth and Longs Simmentals. Her dam, the Collins Meyer 7167 donor, produced a high selling open and bred in past Head of the Class sales. A very good black blaze ET female.
Solid is what best describes this percentage female. E708 has quite the list of greats to back her up. The cow making Genex sire Pioneer and her Red Baldy dam which is a Too Red out of the War Diva Cow. Yeah, I know that’s something you don’t hear every day. Here is on that will keep you in the business for years.

Here is a female we acquired from our good friends the Hale’s. E727 came on the side of her dam as a week old baby and has matured into quite the little lady. Sired by Badger Creek’s herd sire Structure and backed by the Tiffany Cow on the bottom side, Emma will have a very bright future.

THF3 Emma E727
This black blaze faced purebred show heifer prospect is the result of an embryo purchased from Jerry Walsh. She is out of the dam of "WS Revival" and W/C BF Innocent Man. I think you will agree we hit the jack pot! When you lay eyes on this one, your mind will be racing between show heifer, donor and dollar signs. Retaining 1 flush, 6 minimum at sellers expense, buyers convenience.

I wish we had more Loaded Up females. If we did, I think this one would be right in the top of them. Lots to work with here in the show side or as a top performance good producing cow. Pretty balanced on the paper side too. Enjoy your purchase here.

We purchased the high selling open heifer out of the Platinum Standard Sale from Trauernicht Simmentals in 2015 and flushed her one time prior to breeding. This beautiful daughter is like her. Deep ribbed soft made, totally sound on the move. Innocent Man maintained her good looks and even added some to her front end. You will like her!
**HTP/Bram Lady Grace E704**

Here is a highly attractive daughter out of our top Chamberlain X 865U female. Last year Dillon Simmentals selected a maternal sister to E704 for $5,000. This year’s model could be even fancier. Good cow families breed true and that’s why we have always been a fan of the 865U cow. If you are looking for a competitive purebred take a look here.

**Brecken Shipman’s heifer – WLE Shez It C056**

• Here is a royally bred eye popping cow prospect that puts herself in a class of her own for serious Simmental enthusiasts. She is a maternal sib to Brecken Shipman’s 6th overall female at the 2016 National heifer show and carries one of the more pre-potent cow families of recent times in her pedigree. Take time to study the mass, muscle, and balance of this one as she still provides that look of a lady. We are very proud to offer this special female for your appraisal.

**BF Miss Glory Tango 120E**

• Blaze of Glory certainly put a glorious blaze face on this ET daughter out of our Tango donor. This Trademark x Rockin Robin female has produced some great ones (notably) “BF Crysteel Tango” donor for Vogler and Kersten in NE. This Blaze of Glory heifer has all the right parts to do well in the show ring and beyond. Buy with confidence.
BF Miss Im Vista Lady

• This young pure bred Innocent Man daughter gets a lot of top blood line on the dam side. John McBee is real high on this one. Definitely a top end show heifer prospect. Tremendous eye appeal and substance to go with. We have a full sib to this one from 2015. Future donor plans!

SFIS Ella

• This February Innocent Man daughter is an absolute power house she has great rib shape and structure from the ground up. Big top and hip, she is a purebred breeding piece with cow power written all over her. A lot of earning potential with EPDs AND API that are very impressive.

SFIS Erica

• SFIS Erica maybe a little more moderate in her size, but excels in body mass, angularity, and hair coat that is awesome. This late March Innocent Man heifer should be fun to show at jackpot shows early, get her bred and bring her back to the purebred shows next summer.
SFIS Elena

- **Head of the Class 2017**
- A maternal half-sister to Combustible is a result of an embryo that we purchased. Sired by W/C Bullseye out of the great donor cow Lazy H Burn Baby Burn. Here at picture time we could not be more pleased. This PB full baldy heifer appears to have lots of potential as she continues to grow and mature. Look for her to impress judges with her beautiful front one third and over all completeness, great numbers and show presence.

**SFIS Elena**

• Straight out of the heart of our replacement pen. I never in my wildest dreams thought we would let this female walk out of our pasture. We wanted to bring our best and this girl is just that. If you were ever fortunate enough to lay eyes on to her grand dam Cream Soda you would understand why we hate to see her go. D625 is a huge barreled, super fluid, and has that look we all desire to put us on the map.

Bred AI to STCC Womack, ASA#2886419 on 3/15/17

• Who could not use another Steel Force female in their herd? Here is one out of the Collins Meer 7167 donor that sold a $16,000 open and a $8,000 bred thru this sale years past. This one is an ET full sib to the “BF Unshackled” bull that one of our NE co-op herds runs. He has produced some good ones, Steel Force DY1 is bred up early to Innocent Man.

Bred AI to W/C BF Innocent Man, ASA#2785174 on 3/31/17
• 303E & 408E – Her is a duo of sisters that will get your heart racing to see their Dam Z322 later this fall at the Forever Legacy Sale. Moderate, easy fleshing, crisp in her lines, and has the coolest rear leg you can put on one. 303E will be a number we will NOT forget. Her sister sired by 20-20 is one not to look passed either. You have to appreciate her overall length of spine and the extension of her front 1/3 that the Valentine family possesses. It will take some studying which sister will be jumping into your trailer on September 23rd. So sharpen your pencils!!
• What a pedigree, Uprising x Dream On x Ebony’s Joy L-123, no wonder why we selected her from our good friend and valued customer Beshears Simmentals. We thought this one was going to around here for awhile, but now you have the opportunity to add these breed leading genetics. D904 is bred to the HPF herdsire, HPF Believe It, that will be one of the popular lots this fall in the dispersion! He is a Pays to Believe x Sazerac baldy that looks amazing! This bred heifer is the money making kind!

• Bred AI to CNS HFS Payload, ASA#2747228 on 4/27/17
• Pasture Exposed to HPF Believe It 331C, ASA#2969093 from 5/1/17 to 7/4/17

• Females like D619 is what keep the cattle business on the go. Predictability, powerful, youthful in her overall design is why you have to appreciate this female. She traces back to a powerhouse female that our friend Dean Wittrig purchased last year from this very sale.

• Bred AI to CCR Cowboy Cut 5048Z, ASA#2703910 on 5/10/17
• Pasture Exposed to Bramlets Firehouse D600, ASA#3125550 from 6/1/17 to 7/1/17

• Sired by the great Uno Mas and a high performing Expo daughter this solid black bred heifer comes to you safe in calf to HPF Believe It, approximate calving date is mid march!

• Bred AI to SS Goldmine L42, ASA#2106737 on 4/27/17

It’s always hard to part with a baldy and especially a Built Right. We selected this mating with it intentions of producing a product exactly like D606. We sold two maternal sisters in our spring online sale and they were selected by Mason Karisch and Chase Cole Livestock. Happy 6 Simmentals has another beautiful maternal sister that has collected a lot of banner recently. Not to forget D606’s full sister that helped put Circle M in the winners circle countless times. We feel this one has a lot of future and will be a mainstay for years to come. She is AI’d to the standout United son, Executive Order.

- **Bred AI** to W/C Executive Order 8543B, ASA#2900283 on 4/25/17

- **Talk about one that will win the efficiency award for years to come.** Seems to be a continuing factor when we talk about Broadway females. Backed by the Valentine family that has had a huge role in our breed throughout the years.

- **Bred AI** to Extra X2, ASA#2589286 on 5/10/17
If you’re looking for a more moderately framed female, this Innocent Man daughter back to a Welch Dew it Right Dam might be just up your alley. Study her now, and then just imagine her as a 5-year-old. Due to calve February 7th to one of the most talked about bulls to sell at auction in 2017, CDI Innovator. He was the high selling bull at the C Diamond Simmental sale in ND, final bid $25,000 to JS Simmental & Wayward Farms. No bull exposure.

- **Bred AI** to CDI Innovator, ASA#3152448 on 4/30/17

GCCO Glacier Miss D216

- GCCO Glacier Miss D216 is a half-blood bred daughter by WLE/LWSC Revolution A409. We are excited about our Revolution females and can’t wait to have them in production. Even more exciting is that Circle M had enough confidence in Revolution to use him on donors and several other cows. This one is special. She is a true functional power female that is AI bred to WLE Rekindle and due March 19, 2018. Rekindle is a proven calving ease son of Hammer out of an Uno Mas daughter. The resultant calf will be lined up with the 770P cow family, one of the great cows in the breed.

- **Bred AI** to WLE Rekindle, ASA#2991765 due 3/19/18

GCCO Glacier Miss D219

- GCCO Glacier Miss D219 is an Uno Mas, half-blood daughter that is ultra-feminine and reads right in her skeletal angles. She is AI bred to WLE Rekindle and due March 19, 2018. Rekindle is a proven calving ease son of Hammer out of an Uno Mas daughter. The resultant calf will be lined up with the 770P cow family, one of the great cows in the breed.

- **Bred AI** to WLE Rekindle, ASA#2991765 due 3/19/18
GCCO Glacier Miss D209

Mr NLC Upgrade U8676
WLE/LWSC Revolution A409
Shawnee Miss 770P

75-2GR

- GCCO Glacier Miss D209 is a half-blood daughter by WLE/LWS Revolution A409. This female is long fronted and good skeleton. Nice balanced, high quality heifer that has plenty of mass. This heifer is AI bred to the exciting new calving ease purebred herdsire GSC GCCO Dew North 102C and is due to calve March 19, 2018. GSC GCCO Dew North 102C is a Duracell son out of the Welsh Scarlet, Dew It Right daughter. This is definitely and breeding match up that you will look forward to hitting the ground.

- **Bred AI** to GSC GCCO Dew North 102C, ASA#3141837 due 3/19/18.

FSCI Neon Rey C501

Remington Lock N Load 54U
W/C Lock Down 206Z
G C F Miss New Level R206
Triple C El Poderoso Rey
JBS Neon N1001

- If you are looking for a different but very proven cow family to invest in look no further than this striking Lock Down x Neon Rey baldy! This is a performance oriented beast that is sure to raise some outstanding bulls and some highly marketable baldy heifers! Sells bred to Grand Central for a October calf, what a cool twist to a already genetically superior female!

- **Pasture Exposed** to HPF/Bram Grand Central C814, ASA#3015455 from 12/1/16 to 2/15/16

Harkers Chianti

PVF-BF BF26 Black Joker
SS Ebonys Grandmaster
SOSF Ebonys Joy L-123
SS Mr Callaway
Rains Callaway’s Tiara
Gonsior Tara T30

- Purchased from our good friends the Harkers, we had big plans for this one. Personally selected John Walston himself, this big bellied wide based sow of a cow will impress you on sale day and years to come we a certain! Chianti sells safe to the Bramlet/Hudson Pines super sire “Grand Central”! The first Grand Centrals are on the ground and look great in NY! Jump of the “Grand Central” train early, they will become a lot more popular when you see them sell on Nov 1.

- **Pasture Exposed** to HPF/Bram Grand Central C814, ASA#3015455 from 12/1/16 to 2/15/16
This “Jewel” of a heifer was never intended to be sold! Sanders Ranch and Hudson Pines teamed up to buy her as a pregnancy with sole purpose of becoming a powerhouse red donor for both our programs! As we all know, things are different now in NY and this HP branded future donor sell now before her prime! Spitting image of her mother at this age and the earning power to continue this strong cow family that Gabe Chase allowed us to start years ago. 363C sells safe in calf to Grand Central, the awesome Bramlet/Hudson Pines herdsire that the entire country will fall in love with this fall in the “Forever a Legacy” Hudson Pines dispersion. 363C should calve in October!

Pasture Exposed to Bramlets Firehouse D600, ASA#3125550 from 1/30/17 to 3/1/17

• This one is as stunning as her photo! We have followed this female for a while and were quick to add her a few years back in the Midwest Made sale. She is by the Expo bull that has sired many popular progeny for Janssen, Guthridge and Hudson Pines. Her dam sold in the JF sale as one of the highlight breds that year and we kept our eye on her ever since. B1144 traces back to Reba 050K and wow what a cow she was. We are committed to offering our best is the only reason we are parting with this one.

- 225B & A370 – Two cows ready for a lifetime of putting the bread on the table. 225B and A370 are a great duo of females that came out of a group of heifers we purchased from Hudson Pines Farms few years ago. Both are going to calve directly after the sale to HPF In-Charge. He is full sib to the Famous Y030 cow that commanded $65,000 last fall at the Living Legacy Sale. Did I mention both females are total outcross to the majority of the Simmental breed what an added bonus for the future.

- We added this smooth made Ultra Wide daughter a few years back as one of top opens in the New Direction Sale. Her sire was a past top seller at OCC and has produced several sale toppers for the Sloup’s. We were intrigued by this female’s pedigree and her tracing back to the popular Perfection cow. A713 comes to you in a moderate easy keeping package and is bred up early to the one they’re all talking about, Classified.
It’s hard not to like the predictability of the In Dew Time daughters. Here is one that gives her all every time. When studying this cow’s pedigree you will find the Promise me Purple cow which has had a very large impact on our operation and many others across the country. Her dam is a maternal sister to the famous Sparkle cow at Tingles in Kentucky. Just ask Derek what that cow has done for them.

- **Bred AI** to HPF N Charge A025, ASA#2730801 on 12/21/16
