20th Annual
BELLES of THE BLUEGRASS

Joint Select Simmental Female Sale
Reality Farms, LLC  Campbellsburg, KY

Saturday, October 7, 2017  1:00 pm EST
Nineteen years ago in the beautiful bluegrass countryside of Paris, Kentucky at Triple J Farm the inaugural Belles of the Bluegrass Sale was born with Triple J Farm, JR Farm, Inc., Wayward Hill Farm and Swain Select Simmental offering their top of the line genetics. The Belles of the Bluegrass was one of the first group sales in this area. At the time of inception, the founders wanted to commit to having both a bull and female sale. For the first few years, bulls were fed on location at Triple J Farms. In 2001, after the dispersal of the registered herd from Triple J Farms, the sale moved to the Chenault Agriculture Facility in Mt. Sterling.

Twenty sales ago we initiated the sale with some traditional Simmentals. We have certainly changed the cattle in those nineteen years, but WOW what a productive change. Now the sale has twenty years of continued commitment to the Simmental advantage producing quality cattle that are structurally sound, genetically proven, and ready to be productive for you, your herd, and the beef industry. Principle cow families from the Wayward Hill and Swain Select programs like Mindy, and 40B’s influence can still be found in the catalog today.

Over the years some things – location and participants – have changed, but the same great today’s productive cattle have remained. We feel very honored and humbled to be able to breed and raise Simmental cattle in Kentucky, and be able to market those to beef cattle producers over the years. If we look back over the records from 20 years of sales, it is exciting to see the impact genetics from our sales has had on operations across the United States, and those customers who continued to return to the sale each year.

Females and bulls from these sales have gone on to have significant impact in many operations and stud services across the country. In 1999, SSS Nasdaq sold to Pickerel Farms and TJF Fantasy K128 sold to Mohlers Black Simmental. Sanders Ranch selected MLF/JR Lucky Lady for $14,000 in 2003. That same year Wesner Livestock and Shawnee Cattle Co purchased ETR Ms Black Crocus L105 who has had a major impact on Simmental herds such as Sloup, Sanders, Hudson Pines, Wesner, and Foster Brothers. Widely used and prominent herdsire, Welshs Dew it Right walked through the Bulls of the Bluegrass ring. In the history of the Belles and Bulls of the Bluegrass sales cattle and genetics have been marketed to 30 states and Canada.

Thank you for your interest in these sales; whether this is your first or twentieth. We hope that you will join us this year, and for many years to come. In April, the Bulls of the Bluegrass will find a new home at the Bluegrass Regional Marketplace. Beef producers from Kentucky and surrounding states are excited about this new facility, and we are glad to be able to utilize it for future bull sales. We anxiously await what the future holds.
Looking back, it is hard to believe that this is the 20th Belles of the Bluegrass sale that the group has hosted. It seems like only yesterday that we were back at the sale facility at Triple J kicking off this sale. There has been a few changes over the history of the sale however the group still offers there best and continue to improve their individual herds plus improve the Simmental genetics for their customers. The Belles of the Bluegrass has become a mainstay for Simmental breed in Kentucky, and one of the top places to come and select SimGenetics for your operation. This year the major change is the location to Reality Farms in Campbellsburg, KY the first Saturday in October. Matt Jackson a participant in the Belles rolls out the hospitality at his families sale facility. It is a good location and great place to view cattle in the early fall. Also, plan on attending Friday night as well with a special meal sponsored by Multi Min and short educational evening along with sale cattle on display.

The Belles of the Bluegrass group was founded not only on a great group of Simmental breeders, but more importantly solid, predictable, and profitable cow families that have been working in their programs for many years. Some might be traced back 20 years! Cow families like that is what keeps you in business, and what keeps customers coming back because they know they can count on exceptional genetics. Also, the group brings cattle that are ready to work for you. Females that are bred whether a heifer or a cow; these females are ready to be turned out to make you money.

We look forward to visiting with you in Campbellsburg at Reality Farms. We love working with this group in showcasing their breeding programs and their long time support of the Simmental industry in Kentucky and across the U.S. If for some reason you cant attend please utilize DV Auctions and the service they provide in watching and bidding online sale day. Please feel free to contact any of the breeders involved in the Belles, they know there stock and are available to answer any questions or help with any sale matters. If we at DP Sales can assist please call Drew, Holli or I with any questions. See you at the 20th Belles sale.

D502 is one of our favorites here at Misty Meadows. Over the years, the Sheza Unforgettable progeny have dominated our lineup year after year, whether they are females or bulls. D502 is out of Sassy donor and should follow in the steps of this giving cow family. Sheza Cowgirl has an overall complete design, with that added style coupled with that spring of rib and power needed to that special brood cow. Yes, we should keep her however with her pedigree and excellent EPDs we have no doubt she will breed true. Over the years I have learned with the help of others and watched certain cow families and realized this one is dependable and trustworthy. Another plus D502 is homozygous polled and will calve to LRS Elevate.

Doll offers extreme growth and power. As a young female E964 exhibits bone, thickness on her wide base. It is evident that Doll will be a tremendous bred and future cow and will become more impressive each year. This is the highest performing female that I have ever raised her at Buzzard Roost. The United progeny are some of the best. If you need some gas and power add this young female to your breeding program. She could raise your next herd sire. Invest in the cow family and your future as well.
Consigned by... Misty Meadows Farm

Here is why I guess Sheza Unforgettable donor cow has been so popular over the years. This is what she does time and time again. The cow family is consistent and has years of a well received track record by breeders across the US. D500 is a full sister to our Sassy donor. Dilly is a special one offering loads of quality being super deep flanked with loads of spring rib and volume. Dilly is neat shouldered, sound and complete. In the past bull and females sales progeny have been among the sale toppers. We are proud to say the list is long of happy and satisfied customers. The problem is that we have not been able to retain many daughters because of the demand. Dilly D500 will calve to Hooks Beacon. We hope you approve at the 20th Belles of the Bluegrass.

This Dream On daughter of Emily is a time proven pedigree. Some of the best Emily calves ever born have been Dream On’s and this one has the same potential over time. She is bred to calve early to the super low birth weight calving ease sire Hooks Blackhawk. We have been incredibly impressed with the calving ease of this bull and what the calves do after they are born. They look good and hit the ground running. She is homozygous polled and double black and the resulting calf will be a big numbered homozygous polled and double black star in the making.

• Bred AI to Hook’s Black Hawk 50B, AS#2854467 on 4/14/17

Consigned by... Swain Select Simmental

• Bred AI to J Bar J Nightride 225Z, AS#2628568 on 12/7/16

513C and 516C – These two Packin Heat daughters of our Emily donor are very similar in type and kind. They are moderate, functional, and attractive females built for the long haul. Standing on big sound feet with leg structure that is made to last. 513C is bred to calve just after the sale to WS Beef King for an exciting outcross calf and 516C will have a calf at side by sale time by J Bar J Nightride, both represent exciting fresh matings that are outcross to most pedigrees today. Their EPD profile and homozygous polled and double black pedigrees (516C Homozygous Black) make them both very flexible and capable of producing at a high level.
We have long admired the Lock N Load cattle and have tried to buy several over the years. After several failed attempts we bought some semen and decided to make our own. The mating of our donor 015X to Lock N Load has not failed to impress. We have several of these females running around, and they are gonna make fantastic cows. They are consistently huge footed, sound, easy doing and attractive. This is the oldest one, so we decided to share her in the Belles sale. She is homozygous polled and double black and sells bred to Swain Custer, who is a homozygous polled and homozygous black son of W/C Paleface and a great In Dew Time cow. The calf will be a purebred and loaded with potential. We think this one has very high end potential.

- **Bred AI** to TNGL Grand Fortune Z467, ASA#2654876 on 6/20/17
- **PE** to Swains Custer 612D, ASA# #3195875 from 6/3/17 to Present. Breeding date approximately 7/9/17. Safe to Custer pregnant 45 days on 8/18/17

---

A Big Casino sired heifer from the Daisy Mae blood line. She is big and thick like we like them. I chose to breed her to WF/RCC Lexington 1221, like I did her dam, because I feel so strong about this great bull. He is a Ten x Heniretta Pride 643T bull, #2 Ten x bull in the Angus breed right now. This mating should be special. Bred on 3-17-17 to WF/RCC Lexington 1221, ASA#3278837; safe with calf.

- **Bred AI** to WF/RCC Lexington 1221, ASA#3278837 on 3/17/17

---

Z11 from the heart of Ratliff Cattle Company’s breeding program, I am offering a female from the Daisy Mae blood line. This Upgrade Female is bred to WF/RCC Lexington 1221. He is the #2 Ten x bull in the Angus breed for EPDs right now. His dam is our donor cow from the great Sitz Heniretta Pride 643T, This mating should be special. Bred on 3-17-17 to WF/RCC Lexington 1221, ASA#3278837; safe with calf.

- **Bred AI** to WF/RCC Lexington 1221, ASA#3278837 on 3/17/17
Coleman Charlo is making them good looking, sound, deep bodied and built for the long haul. MMF Makin Honey was a well received female sold in last years sale. Trace her back to SVF Makin Honey and you have a recipe for good doing, long lasting good looking cattle.

- Bred AI to LRS Top Ten, ASA#2729707 on 4/3/17
- PE to VPI Lookout C558 ET, ASA#2991637 due around 1/28/18

Makin Honey has a few notches on her belt being an older cow however comes from the respected line of Makin Honey which won the Junior show and open show at the North American. Look up the cow card and study all the family members represented in the pedigree. Remember longevity, fertility and stayability are important factors. She will make money calving to One Eyed Jack.

- Bred AI to One Eyed Jack, ASA#2729707 on 4/3/17
- PE to VPI Lookout C558 ET, ASA#2991637 due around 1/28/18
This is a special year being the 20th annual Belles of the Bluegrass and we again thank Fred Swain and Dr Henry Allen for allowing our small operation to be part of this sale. This sale has always been built on breds however we always try to commit some of best genetics at a young age. We feel E510 is an eye opener being superb in quality backed by Hooks Beacon, United and Ebonys Joy. We are proud of our stamp on this female no doubt. E510 is in the top 2% for CE, top 1% for birth, top 1% for marbling, top 2% for REA and an API and Ti in the top 1% of the breed. All I ask is to consider this breeding piece and please keep me posted on her future, it should be good. She is young and special. Homozygous black.

Selling three embryos on each mating with a guarantee of one pregnancy if work is performed by a certified embryologist. Here is a great opportunity for some proven genetics. In the past Belles of the Bluegrass and the bull sale we have sold several progeny out of the donor Reddy U610. Also, we sold fancy open heifers in the Ky Beef expo and the Tennessee Agribition and all the buyers across the country have been pleased with those animals still working and performing well. We have had progeny and know this mating works. Select from the bulls of W/C United and CCR Santa Fe. Buy all six and move your program forward.

**Consigned by:** Swain Select Simmental

This blaze faced young lady is another result of our Dream Line efforts, line bred to the great Dream On. Again it has produced a functional moderate framed female with a lot of usefulness. The dam of 609D is our last direct daughter of Mindy making her very special to us. She has produced a very intriguing baldy in this heifer that has an opportunity to grow into something special. Every year there is one that is really changing as sale time comes, this year it is 609D. We think she is going to really mature into one any buyer will be proud to own. Being bred to Wide Range, she could produce one right off the bat that is very fun to own or sell! Double Polled and Homozygous Black

- **Bred AI** to CCR Wide Range 9005A, ASA#2725666 on 4/15/17

We have had huge success with Steel Force progeny out of 403P. The Sloup and Hilltop programs partnered a couple of years ago to make one the $12,500 top seller in the Belles of the Bluegrass and this beauty is a solid black version that is equally intriguing. She is beautiful to look at and has definite high end potential as a top producer. She is bred to the highly regarded phenotype and calving ease sire Uno Mas, her resulting calf that is due right at sale time, should get you started on the right foot with her right away. She looks fantastic in her picture, and she is every bit as good in person. Homozygous polled and homozygous black.

The 18 family has usually been on the untouchable list as far as selling from WHF. We have accumulated several and can now part with some. 18C has a maternal sister that is a favorite at WHF. This breakle faced heifer will turn heads in your front pasture for many years to come.

- Bred AI to Hooks Blackhawk, ASA#2854467 on 4/18/17
- PE to ES Blackstone, ASA#3025313 from 4/24/17 to 6/6/17 & WHF Bounty D006, ASA#3202280 from 7/5/17 to 8/9/17

WHF Tabitha 018C

Consigned by... Wayward Hill Farms

Another fancy black baldy right out of the WHF replacement pen. 39C is really impressive on the hoof and on paper. This is one that could add some performance and style. Selling with a calf at side to start the money making process for the new owner.

- Bred AI to Hooks Blackhawk, ASA#2854467 on 12/23/16

WHF Ariana 39C

Consigned by... Wayward Hill Farms

We have not sold to many dynasty daughters because we want to keep them and see what they would do. Now it is time to share the wealth and put some on the market. We dug into our replacement for these 5 fall calving 2 year olds. 227C has a really strong EPD profile and is really nice to look at in the pasture. We will have done all the work and calved her out. Now the new owner just needs to reap the rewards.

- Bred AI to OMF/DK Cruise Control, ASA#3019391 on 12/3/16

WHF Mabelle 227C

We are offering 2 ½ blood females. Same age, same genetics but this one is the spring bred. Go find her sister to see what she will look like with a calf. This heifer is really impressive and will only get better in the months to come.

- Bred AI to ES Blackstone, ASA#3025313 on 4/18/17
- PE to ES Blackstone, ASA#3025313 from 4/24/17 to 6/6/17 & WHF Bounty D006, ASA#3202280 from 7/5/17 to 8/9/17
Ratliff’s Expectation

Consigned by... Ratliff Cattle Company

C08 is an upgrade sired heifer from the great SVF/NJC Expectation N206 family. Out of a TNT Tanker U263 female that should make a great breeding piece for any operation. She is bred to the $87,500 high selling bull of the 2016 Werning program.

- Bred AI to W/C Relentless, ASA#3045559 on 1/15/17 safe with calf

Swain Lady Bug 523C

Consigned by... Swain Select Simmental

If numbers are your game, Lady Bug is your girl! A set of EPDs just don’t get much better than this across the board! To top it off she is an outcross for most people and homozygous polled and double black! This moderate framed powerhouse redefines easy keeping. She is the kind that will keep you in the business a long time and minimize your input costs. She sells bred to our Jr Herdsire, Swain Custer 612D who is a homozygous polled and homozygous black son of W/C Paleface and a great In Dew Time cow. He is big bodied, sound, and really a powerhouse, he represents the addition of more of the same traits that make 523C a nice prospect.

- Bred AI to WLE Uno Mas X549, ASA#2532016 on 4/15/17
- PE to Swains Custer 612D, ASA #3195875, from 6/25/17 to Present. Breeding date approximately 7/1/17. Safe to Custer pregnant 45 days on 8/18/17

Swain Lucy 524C

Consigned by... Swain Select Simmental

This bald faced Utah out of a blaze faced Steel Force X 403P is unique and interesting. She is the result of the Dream Line pedigree we have been building on, focused on line breeding to the great Dream On. The result is not a disappointment. We just love what she represents. Moderate and extremely well designed, standing on a near perfect structure, she is attractive and one that will make a lot of money. She sells bred to TJ Northward, who we identified as a Cowboy Cut son we wanted to sample based on his pedigree and EPD profile. The result could be right on the cutting edge! She is homozygous polled, as her calf will be, as well as being double black. Unique opportunity for something fun to develop and build on for the future.

- Bred AI to TJ Northward 573C, ASA#3022900 on 4/16/17

3/8 Blood • BD: 12/9/15 • ASA# 3127601

- **Bred AI** to TNGL Grand Fortune Z467, ASA#2654876 on 4/16/17

The dam of this heifer sold on the side of her dam to Sloup Simmentals for $60K for the pair a couple of years ago. We were lucky enough to acquire Partisover Rock It 494B from Nick and we are sure glad we did. This is her first calf, and she had a heifer by Cowboy Cut this year that we are also very high on. This is a little lower percentage female, being out of an Angus bull, but her calf by Grand Fortune will be a 5/8 that will be really good! We are very excited about this female and the future of this cow family in our program.

Here is a faithful cow with special and faithful pedigree. Most breeders know the lineage of Shes Savannah and their long time impact on the breed. 92W is backed by Built Right on the bottom side so that adds to the equation. 92W is deep and big bodied and complete. She will calve to the Shooter which is a Senerita grand son.

- Bred AI to Welsh Shooter 24C, ASA#3085908 from 4/15/17 to 8/1/17
ASA Sale Terms & Conditions ...

BIDDING AND APPLICABLE LAW: All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS: Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER’S RISK: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:
1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.
2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY: Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as “eligible for registry” or “registry applied for”, the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION: Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE: When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller’s expense. The animal in question, at the buyer’s option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:
1. Females are guaranteed to be breeders, with the exception of:
   a) Female calves sold at side of dam
   b) Injury or disease occurring to the animal after time of sale
   c) Gross negligence or willful misconduct on the part of the purchaser
   d) Females used in ovum transplant after time of sale
   e) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
   a) Bull calves sold at side of dam
   b) Injury or disease occurring to the animal after time of sale
   c) Gross negligence or willful misconduct on the part of the purchaser
   d) Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
7. An open female is a non-pregnant animal.
8. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE: The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status of breeding status of an female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:
1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.
2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED: DEFINITIONS:
1. HORNY — An animal with a horn growth affixed to the skull that has or has not been removed.
2. POLLED/SCURRED — An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. POLLED — An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. SMOOTH POLLED — A smooth-pollied individual has no scurs and does not develop scurs later in life.

GUARANTEES:
1. If an animal is sold as polled and develops scurs, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer’s option shall be exchanged for a smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
4. If an animal is sold as smooth-polled and proves to be scurred, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:
The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.
1. All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a nonbreeder, the animal may be returned to the farm of the seller, at the buyer’s expense, if in good physical condition, and the return is in compliance with the health requirements of the seller’s state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another animal of equal value or refund the purchase price.

Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as “safe in calf” to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller’s expense.
4. If a female is sold as “open” and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

GENETIC TESTING AND TraitTrac STATUS: Sellers must identify the TraitTrac status and the results of any qualitative genetic testing performed on any animals or genetic material offered for sale. The ASA considers it an unethical practice to misrepresent or fail to disclose the TraitTrac status or qualitative genetic test results of any animal or genetic material.

DISCLOSURE OF MATERIAL INFORMATION: Sellers must disclose all material information concerning any animal or genetic material offered for sale. For the purposes of these Safe Terms and Conditions, “Material Information” is defined as any information which would be likely to affect the value of the animal or genetic material if the information were known to the public.

Material Information includes, but is not limited to, information related to genetic tests, blood tests, ultrasound pregnancy results, disease tests, pregnancy and fertility test results, information related to the sex and age of in utero calves or embryos, and information related to the fertilization status of in utero calves, including whether the calf was conceived via artificial insemination or natural service. The ASA considers it an unethical practice to misrepresent or fail to disclose any Material Information concerning an animal or genetic material offered for sale.

LIMITATIONS OF OBLIGATIONS: These sale terms and conditions constitute a binding legal obligation between the buyer and seller of any animal or genetic material sold under these terms and conditions. However, the ASA, its directors, officers, employees and agents do not assume any obligation, legal or otherwise, to enforce the sale terms and conditions agreed to between buyer and seller.

Announcements:
A supplement sheet will be available sale day with updated information, catalog corrections, or any additional information. This information and any information relayed over the auction block during the sale will take precedence over printed material for the sale. Anyone attending the sale does so at their own risk. DP Sales Management, sale hosts, and/or consignors will not be held responsible for any personal injury incurred at the event. DP Sales Management is only an agent for the seller and has no responsibilities other than those conducting the sale.

Sale Terms & Conditions:
All cattle sell under the terms and conditions of the American Simmental Association. Cattle become the responsibility of the buyer upon purchase. Terms of sale are cash or check, payable during or immediately after the sale and before cattle will be released. Payments are to be made within 15 days of the sale. Failure to make settlement in a timely manner will result in prosecution. Cattle will not be transferred until paid in full.
